

## Air Quality Pledge

By signing this pledge, you are joining others in pledging to distribute information on air quality to the parents within your school. By doing so, we can all look to raise awareness of the importance of air quality and the issues of air pollution. This is being done in coordination with the Public Protection Partnership, where by you as a school agreeing to sign the pledge will then be named in pride on the Public Protection Partnerships website.

**I hereby pledge that we as a school will share information on air quality to the parents of the school to raise awareness of the importance of air quality in our everyday lives.**
